MOBILITY

Dear Mr. M. Ross.

A few days ago I have received your letter of information on the above mentioned patent application.

I would like you to know that I as the inventor of the above stated invention **oppose** to the issuing of a patent on anyone else but me.

No one has the right to get in to the possession of someone else's patent.

In case the patent is issued by you anyway you will force me, to take legal steps against the person or company, who will be receiving the patent, and eventually against you and your organisation.

I hope you will respect my my statement and handle this case correctly.

I expect to hear from you and the decision that will be made by the US Patent and Trademark Office.

Sincerely

Josef Ott
